A DEADLY EPIDEMIC

Over the past twenty years, fall-related injuries and deaths among older Americans have increased at an alarming rate – a reality that has caused enormous human suffering in the United States.

FALL STATISTICS, ACCORDING TO THE CDC

NUMBER 1

Cause of injury-related deaths among persons aged ≥ 65 years

30 MILLION

Elderly Americans fall every year

1 OUT OF EVERY 5

Falls results in a serious injury

2.8 MILLION

ER visits caused by fall-related injuries each year

300,000

Hip fractures result from falls each year

27,000

Seniors die every year from accidental falls

A PROVEN, COST EFFECTIVE SOLUTION

To address this epidemic, the U.S. healthcare system has an invaluable tool at its disposal: **physical therapy**.

According to the National Institute on Aging, patient-specific exercise regimens, utilized in combination with regular physical activity, are evidence-based solutions that can significantly reduce the likelihood of an accidental fall – **saving thousands of lives and billions of dollars**.

let's work together

You don't want to learn of residents declining after they are discharged home. It's not good for them and it's certainly not good for the nursing home from a business perspective. **Preventing falls, injuries, re-hospitalizations and the long-lasting ramifications of those events, of course, is top priority.**

That's why we are happy you are taking a few minutes to learn more about our locally developed **In-Home Physical Therapy Program.**

We believe that when discharge planners like you partner with us, it drastically increases the likelihood of a patient's increase in functional mobility when home. A person's functional mobility is directly and strongly correlated with their overall health.

And a discharged resident who is healthier, stronger, and better balanced will age in place at home, and will generally be happier and that's always very nice to see.

TRUST

Seeing your residents as happy and active people, and not only as a consumer for your business is probably very important to you. We hope that we can develop a partnership that increases the likelihood that the residents thrive upon D/C rather than slowly lose functional mobility.

Nothing we say about our services matters until you are able to TRUST that what we say holds water.

That's why we let our past patients help us build TRUST.

Trust us! Our patients have provided us with more positive testimonials and feedback than any physical therapy group in the area because they experience significant functional mobility improvements and that makes them **exceedingly happy**. And, we think you should care deeply about what our patients say because **they are the same in every way as the residents in your building who will be transitioning home.**

You can read their words and see their faces here:

Excellent physical therapy for my mom, age 90. Helped her regain strength, mobility, endurance and confidence following a hospital stay for pneumonia. The Achieva therapists were so compassionate, friendly professional and helpful. They helped mom achieve much more than we thought possible - not only to get around the house safely and do steps but expand her mobility outdoors. Mom, who is almost 91 now, asked for a new leaf blower for Mother's Day so she can keep our deck clean! Thank you Achieva Rehabilitation!

Response from the owner 5 months ago

Susan, this is so amazing to hear. As the owner of the company, stories like this...your mom asking for a new leaf blower....that's just over the top and I'm so proud of all my therapists...they are awesome. Thank you for taking the time to provide this review!!! Be well!!!

 Edit

WHAT NEXT

As a small, local company, we want to have a positive effect on as many seniors as we can with a strong emphasis on helping them age happily and safely in their home. I believe we can come up with a plan to do just that for your residents who transition home.

Let's talk further!

"We Help Older Adults Who Are Struggling To Stay Independent Regain Balance, Strength, and Mobility So That They Can Enjoy A Safe and Active Life at Home and in the Community"

Deep down inside every senior, there is the heart and soul of an active, independent person. Their fortune of living into their "Golden Years" has left them with the misfortune of developing some "rust" on that gold.

We believe that you can get **better at any age**. We believe that struggling to take care of yourself is never a "natural" part of aging. We believe that people who are considered "old" by society's standards are rarely given a chance to remain active and mobile because they are deemed fragile.

Achieva Rehab's In-Home Physical Therapy Program was developed by **Joel Digris**, Physical Therapist, to prove one thing - **folks in their "Golden Years" can thrive no matter what they've been through**. The therapists with Achieva Rehab are pushing seniors to meet their top-end potential every day, helping them ease the worry of losing independence and mobility.

My mother's always said: **"Better days ahead."** No matter what your age or problem, **there are better days ahead with Achieva Rehab**. You can find our amazing therapists in homes in **Schuylkill, Luzerne & Carbon Counties**.
